Commissioned by the Imperial Palace in 1890 as the first European-style hotel in Japan, this landmark has seen generations of famous figures (Babe Ruth among them) pass through its doors, survived World War II, and currently is on its third structure. The 1923, Frank Lloyd Wright-designed version outlasted the Great Kanto Earthquake, which struck the day after its re-opening. Today's two-building hotel still hosts politicians, holidaymakers, business guests, and sightseers who wouldn't visit Tokyo without stopping in for a look.
