October 2010

ICA Endowment Research and Education Foundation

The International College of Angiology is embarking on an international initiative—an Endowment Research and Education Foundation. In order for critical advancements to occur in cardiovascular diseases, the continued quest for knowledge in both research and education is of the utmost importance.

ICA Mission Statement

The College is committed to advancement of research and development of socioeconomic issues, and is dedicated to establishing educational programs appropriate to practicing physicians and surgeons. The Endowment Research and Education Foundation of the College will proactively seek support for education, basic and clinical research, and explore key areas rapidly expanding in cardiovascular medicine and surgery. We expect this fund raising effort to generate vital resources to provide a forum for education, leading the practitioner into the future of an ever changing field of cardiovascular diseases. The ultimate goal of the College is to improve healthcare delivery through various avenues of dissemination of knowledge.

The "**International Steering Committee**" has set a goal of raising \$1 million in cash and pledges from our membership and the corporate community. Member investment is vital to this effort's success. Your support will assist in funding decisive initiatives by providing a forum of unbiased professional education through mini-symposia and hands-on workshops, and promoting education, research, and communication while offering strong leadership in the development of healthcare policy. Through your support, you will have an opportunity to not only invest in the future of cardiovascular diseases, but also demonstrate your commitment to the goals and objectives of the College.

Our Endowment Research and Education Foundation campaign offers many opportunities to serve in a leadership capacity within College. While we have formed our International Steering Committee, additional leadership positions are still available. We are actively seeking international, national, regional, and local leaders who will publicly advocate, promote, and financially support the campaign. These leaders will play a vital role in the success of this campaign. If you are interested in additional information regarding the available leadership positions, please contact me at +313.916.1363 or via email at: rsharma@rad.hfh.edu.

I am confident you will join me in making our fundraising campaign a success, as well as an investment in the future of cardiovascular healthcare. I plan to personally contact the President of the College for the first contribution to the Foundation. The enclosed Newsletter outlines our objectives and levels of support for our ICA Members.

Sincerely,
Rajinder P. Sharma, M.D., FICA
Chairman, International Steering Committee
ICA Endowment Research and Education Foundation

2010				
2011				
2012				
2013				
2014				

- III. Please indicate how you would prefer your name to be listed for donor recognition purposes:
- _____

IV. Additional Instructions:

A LIVING MEMORY

Commemorative Giving offers the opportunity to acknowledge the spirit of all those who have touched our lives. When someone close to us dies, people often feel the need to express their feelings of love and sympathy in a meaningful way. What better way to honor the memory of a loved one than through a gift that enhances patient care through continuing education and research.

A donation made "in memory" can be a fitting tribute to someone special who has died, but can also be given in celebration of a friend or relative's life.

Gift Plans

Pledge Amount (over 5 years)	Annually	Semi-Annual	Monthly	Weekly
\$25,000	\$5,000	\$2,500	\$416	\$96
